

HELP

If you have technical questions at any point in the application process, you can call this toll-free MedXPress support number: (877) 287-6731 (available 24/7), or you can e-mail the support desk: 9-natl-avs-it-servicedesk@faa.gov

REVIEW

1. Connect to MedXPress at <https://medxpress.faa.gov>
2. Create an account or login using your existing account
3. Enter medical application data
4. Submit application
5. Print summary sheet
6. Give summary sheet with confirmation number to your AME

If you do not have a computer, you can access MedXPress with any available computer with Internet access—at your local library or friend's house, for example.

Scan this QR code stamp to quickly connect with the MedXPress home page.

ADVANTAGE: PILOTS

Thank you for participating in the FAA's MedXPress program. You are helping to support the FAA's goal of speeding up medical certification and increasing data integrity.

NOTES

- A medical examination by an FAA-designated aviation medical examiner is required to complete the certification process.
- This system is not yet available for FAA Air Traffic Control Specialists.

Certification*

FAA MEDXPRESS:

Get in the Express Lane to Medical Certification

The Federal Aviation Administration's MedXPress system allows anyone requiring an FAA Medical Certificate or Student Pilot Medical Certificate to electronically complete their medical application (FAA Form 8500-8).

Information entered into MedXPress will be available to your aviation medical examiner (AME) to review prior to and at the time of your medical examination, if you provide a confirmation number.

HOW TO CREATE AN ACCOUNT

MedXPress is located at <https://medxpress.faa.gov/>

First-time users should click on **REQUEST ACCOUNT** and complete the online form. You will

be asked to supply your name and e-mail address; your e-mail address will be used as your account name when logging into FAA MedXPress.

Next, you'll be prompted to answer three simple security questions that will be used to verify your identity if you forget your password or need help with your account.

After submitting your form, your initial password and instructions for completing the account request process will be sent to the e-mail address you provided.

IMPORTANT: Never use someone else's MedXPress account to enter your information. Each applicant must create his or her own account. Only one applicant per e-mail address is allowed.

If you have a hand-held device— i-Phone, Smartphone, BlackBerry, etc.— you can fill out the medical application form “on the fly” at your convenience.

HOW TO LOG IN

Once you receive e-mail confirmation that your account has been created, you can return to the FAA MedXPress login page and access the secure site using your e-mail address and the temporary password supplied in the confirmation e-mail. You'll need to enter a permanent password.

APPLICATION FORM

Upon signing in to MedXPress, you'll see the medical application form. Complete the form and when you have finished, enter your password where it indicates **I'M DONE. SEND MY APPLICATION TO THE FAA.** Click **SUBMIT.**

MedXPress will assign your application a confirmation number when it has been successfully submitted.

IMPORTANT: Once you submit your application, you can no longer modify the application.

TIP: If you need to find information about the date of previous exams, medications used, or other such information before completing the MedXPress application, you can save what you have entered thus far and return later to complete any missing data. Click the **SAVE NOW** button on the bottom of the page and log off. When you log back on, the entries you have made will still be there.

CONFIRMATION NUMBER

A confirmation number is provided for you upon successful submission of your medical application; this number is also e-mailed to you to confirm your application. When you make an appointment with your aviation medical examiner, you may be asked for this number so your AME can review your medical information prior to your physical. Take your confirmation number with you when you arrive for your exam because your AME will **NOT** be able to access your exam without it.

We strongly recommend that you view and print a copy of the completed form before logging off.

MAKE YOUR MOVE

After submitting the electronic application form, you have 60 days in which to schedule and take a physical examination with your AME. After 60 days, the application is deleted.

PERMANENT RECORD

When your AME imports your application using your confirmation number and saves it in the FAA's medical certification system, the application is considered a permanent record.
