

CACI - Hypothyroidism Worksheet (Updated 07/29/2015)

The Examiner must review a current status report by the treating physician and any supporting documents to determine the applicant's eligibility for certification. If the applicant **meets ALL the acceptable certification criteria** listed below, the Examiner can issue. Applicants for first- or second- class must provide this information annually; applicants for third-class must provide the information with each required exam.

AME MUST REVIEW	ACCEPTABLE CERTIFICATION CRITERIA
Treating physician finds the condition stable on current regimen and no changes recommended	<input type="checkbox"/> Yes
Symptoms and signs	<input type="checkbox"/> None of the following: fatigue, mental status impairment, or symptoms related to pulmonary, cardiac, or visual systems
Acceptable medications	<input type="checkbox"/> Levothyroxine sodium (Synthroid, Levothyroid), porcine thyroid (Armour), liothyronine sodium (Cytomel), or liotrix (Thyrolar)
Normal TSH within the last one year.	<input type="checkbox"/> Yes

AME MUST NOTE in Block 60 one of the following:

CACI qualified hypothyroidism.

Not CACI qualified hypothyroidism. Issued per valid SI/AASI. (Submit supporting documents.)

NOT CACI qualified hypothyroidism. I have deferred. (Submit supporting documents.)
